

Gun Powder 3X

Introduction: This is a septicemia remedy of especial use in osteomyelitis or septic wounds, where its actions can be dramatic.

Preparation: Trituration.

Guiding symptoms/Indications:

Cures obstinate Psoriasis. It is antipsoric, anti-syphilitic and anti-sycotic. Resistance to treatment and extensive lesions are the main indications.

The indications for the remedy are broad and clear, so that no fine differentiating of symptoms is required.

- The list of diseases named under "Clinical" will be a sufficient guide, coupled with the broad indication "Blood-poisoning."

- Gunp. corresponds to suppuration in a great number of forms, many of them septic.

- I have not found it disagree with any other remedy, so that there need be no fear of alternating it with some other remedy if particularly indicated.

- Canon Upcher has recently published cases of skin eruption mistaken for scabies by medical men, but actually produced by handling ivy, and quickly cured with Gunp. 3x.

Dose and administration: 1 tab 3 to 4 times daily for adult. ½ tab for 3 to 4 times daily children.

Side effects: No significant side effect has been observed in proper dosage

Contraindication: There is no known contraindication.

Relationship:

- Canon Upcher finds that occasional doses of Hepar highly increase its effects.

- Calendula externally is also complementary.

- Thuja, Silica, Baryta carb. (septic tonsils) agree very well.

Presentations: 50 tabs (20 gm in PET bottle), 450gm powder in container.
