

Osteofix

Generic Name	Glucosamine Hydrochloride 150 mg, Chondroitin Sulfate 120 mg and Undenatured Type-II Collagen 40 mg.
Brand Slogan	Reducing Joint Pain & Restoring Mobility
Composition	Each Osteofix Capsule contains- Glucosamine Hydrochloride 150 mg, Chondroitin Sulfate 120 mg and Undenatured Type-II Collagen 40 mg.
Description	Joint pain and cartilage degradation are common concerns affecting millions worldwide, often leading to discomfort, reduced mobility, and a decline in overall quality of life. Scientific advancements have revealed the key role of Glucosamine, Chondroitin Sulfate, and Type 2 Collagen in maintaining joint health, cartilage regeneration, and reducing inflammation. Glucosamine and Chondroitin work synergistically to restore cartilage integrity, reduce stiffness, and alleviate pain, while Type 2 Collagen plays a crucial role in maintaining joint flexibility and preventing further degeneration. Research published in reputable medical journals confirms that these ingredients can slow down the progression of osteoarthritis and support long-term joint health.
Indication	Osteoarthritis, Rheumatoid arthritis, Joint pain & inflammation, Difficulties in flexibility & mobility, Joint discomfort & stiffness (knee extension), Impaired joint function, Strenuous exercise & sports.
Dosage & Administration	1 capsule daily with meal or as advised by the physician.
Side Effects	Undenatured Type II Collagen, Glucosamine & Chondroitin are well tolerated in recommended dose. Side effects are rare and some may feel stomach problems.
Contraindication	This combination is contraindicated in patients with known hypersensitivity to Glucosamine, Chondroitin.
